Abstract

Sunnah or al-Sunnah is a thing familiar in Muslim community around the world and Muslim community in Malaysia in particularly. Sunnah is the explainer of al-Quran al-Karim. Understanding of al-Quran would not be completed except by referring to al-Sunnah. Muslim community have agreed on this matter. All states in Malaysia practice the belief of Ahl al-Sunnah Wa al-Jamaah. Only the state of Perlis is more famous with Sunnah compared to others until nicknamed as “Darus Sunnah”. Many factors are contributing to this nickname, among them is the approach taken by religious figures and political figures in Perlis. In fact, the most main and biggest factor is the role of DYMM His Highness King of Perlis and DYTM His Highness Raja Muda of Perlis in sparking sunnah discourses until they become the main word of mouth among community. In consequence of that, this writing aims to explain on approach of sunnah practice practised in the state of Perlis suiting its nickname *darul sunnah*. Method implemented in this writing was based on qualitative method. Data were collected from library research and focused on perception of al-Quran, al-Sunnah, famous books regarding with sunnah, official documents of Perlis state government and files from Mufti Department of Perlis. This study found that Perlis is a very strict state in defending, disseminating and fighting for sunnah in daily practices. All practices related to Islamic religion should in advance be ensured to have strong reference from religious sources as agreed by scholars of Ahl al-Sunnah Wa al-Jamaah. Practice lacking of reference or practice based on weak reference or argument will not have place in the state of Perlis, the practice will also be rejected and not be taken as state official practice. This subject is to realise the faith that Prophet Muhammad bin Abdillah SAW is the best role model and there is nothing that can compete the greatness of his upheld Sunnah.

Keywords: Sunnah Approach, Sunnah Practice, Ahl Al-Sunnah Wa Al-Jamaah, Perlis.

Introduction

Allah SWT has chosen Muhammad bin Abdillah SAW as a Prophet to descend upon him. After that, he was commanded to explain it to human. Allah SWT said:

Meaning: “And We descended upon you al-Quran, that you may explain to human beings what descended upon you and that they will ponder.”

(al-Nahl: 44)

There are two explanations meant in this holy verse:

First: Explanation in the meaning of delivering or reciting the words and order of revelation descended upon human without hiding even a letter. This is the commandment contained in words of Allah SWT:

Meaning: "O Messenger, deliver what is descended upon you from your God. And if you do not perform it (what is commanded, that means) you do not deliver His trust. Allah protects you from (disturbance of) human. Truly Allah does not provide guidance to the infidels."
(al-Maidah: 67)

Second: Explanation on meaning of word and meaning of verse required by human. Especially to the words and verses included in mujmal category that needs elaboration, general that needs specification and mutlaq that needs takyid. These all need to be explained by Prophet SAW either through word, action or approval known as al-Sunnah. (al-Albani 1404).

Al-Quran needs al-Sunnah as the explainer and elaborator to the meaning intended by Allah SWT. Without al-Sunnah, al-Quran cannot be understood and is impossible of practice. Thus, al-Quran extremely needs al-Sunnah for this intention. This is what meant by scholars' words:

Meaning: "*al-Kitab (al-Quran) needs al-Sunnah more than al-Sunnah needs al-Kitab.*" (Ibn Muflih, 1419)

Perlis is the smallest state in Malaysia, located in the north of Malaysian Peninsula and becomes the only state in Malaysia not bound to any sect. This is stated clearly in Constitution of Perlis State Government 1948. The starting point of this establishment is said to begin around year 1920s (Man, 2007) due to influence from Islah wave performed by Islah movement in Egypt by Jamaluddin al-Afghani and Muhammad Abduh (Malik & Mat, 2017). This Islah or Sunnah stream becomes more accepted among the community when it succeeds of influencing several religious figures, state political personnel and royal side. There are three names always mentioned as the main movers of Sunnah or Islah movement in Perlis which are Haji Ahmad b. Haji Muhammad, Dato' Wan Ahmad b. Wan Daud and Dato' Sheikh Ahmad b. Mohd Hashim. The three of them are known in history of Perlis as "Three Mat" (Abdullah, 1997).

Influence of Sunnah movement in Perlis on the strength of evidence and argument has changed several religious practices in Perlis such as Basmalah recitation as *Sir*, no specific surah Yasin recitation at Friday night, no *talkin* at cemetery, no *arwah* feast and others. This difference of practice in the state of Perlis is the fruit of thought that is unbound and not fanatic to any sect. If it is observed, Sunnah approach in Perlis does not only focus on specific ritual practice only, in fact Sunnah approach in Perlis encompasses the whole aspects of Islamic teachings either Faith, Ritual or Financial Transaction which are clearly seen from the fatwas produced.

This writing aims to explain the approach of Sunnah practice in Perlis, to elaborate the Sunnah thought in Perlis and to see the extent of efforts have been done and are being done to uphold Sunnah of Prophet SAW at high. There are many writings regarding Sunnah in Perlis done and among them are Mat (2000) *al-Sunnah di Perlis*, Abdullah (1989) *Gerakan Islah di Perlis: Sejarah dan Pemikiran*, Din (1976) *Syeikh Abu Bakar al-Asyaari: Ulama Tegas Dan Berani*, Man (2007) *Kedudukan Mazhab Syafi'i Dalam Perkembangan Ahli Sunnah di Negeri Perlis*, Malik and Mat (2017) *The Historical Development Of The "Sunnah" Reform Ideology In The State Of Perlis, Malaysia*, Othman and Baharuddin (1991) *Gerakan Pembaharuan Islam: Satu Kajian di Negeri Perlis dan Hubung kaitnya dengan Malaysia* and others. However, writings regarding approach of Sunnah practice in Perlis is always fresh for multiplication considering that the Sunnah issue itself remains fresh and is kept on discussed. Due to that, this writing of approach of Sunnah practice in Perlis is done to handle issues of Sunnah generally and in Perlis specifically.

Methodology of Writing

Methodology implemented in this writing was based on qualitative method. Data were collected from library research and focusing on perception of al-Quran, al-Sunnah, famous books related to sunnah, official documents of Perlis state government and files from Mufti Department of Perlis. Data collected were analysed and elaborated through inductive, deductive and comparative methods to obtain appropriate results complying with the determined objectives.

Findings

When this discussion is related to sunnah, Then it is a need to explain briefly on the definition of from literal and religious aspect.

Sunnah literally means the path gone through or continuous path either of good or bad (Ibn-Manzur 6/399).

Meanwhile from religious aspect, it means: "word, action and approval of Prophet SAW." (al-Syaukani, 1421).

The Companions and al-Salaf when uttering the word Sunnah by *mufradah* and *mu'arrafah* word with letter *alif* and *lam* without relating it with something then the word refers to Sunnah of Prophet SAW, which is the path meant by Prophet SAW in execution of task bestowed by Allah to him as a guide and explainer of the true religion (Mahdi, 2017).

Royal Speech

The role of Malay kings as the leader of religion is contained in the constitution of each state related to Islamic religious administration. Each constitution in each state lines the King Ruler of the State as the leader of Islamic religion for the state.

DYMM His Highness King of Perlis, as the State religious leader really concerns on Sunnah approach. His Highness himself for several times has provided explanation on Sunnah approach practised in Perlis. In Multaqa Tuanku Syed Sirajuddin Jamalullail 2018, in Dewan Warisan, Kangar Perlis DYMM His Highness King of Perlis spoke:

"Public acknowledge that Islamic teaching in Perlis based on method of Ahli Sunah Wal Jamaah, is not bound to any particular fiqh sect. At the same time, we also appreciate all treasures of Islamic scholars and reject extremism until Islam is regarded as an old-fashioned and difficult religion,"

His Highness also told that, He is confident religious teaching encompassing various views in fiqh of sect under Ahli Sunnah Wal Jamaah by sincere intention and striving towards harmony, will bring development, build civilisation and bring blessings to the whole mankind.

"In coincidence with development of civilisation and modernisation of community, there are various interpretations or ijihad on a particular practice that can be taken by the ruler or 'Ulil Amri according to socio-culture of a place. In this matter, we are guided by advisory service of Mufti Department and Members of State Fatwa Committee in determination of the best opinion for the community to practise Islamic religion harmoniously without any prejudice or confusion."

Ahl al-Sunnah Wa al-Jamaah in Constitution of Perlis Government

Constitution of Perlis Government 1948 has bound that method of Ahli Sunnah Waljamaah not binding to any fiqh sect as state's belief. Method of Ahli Sunnah Waljamaah is the main backbone of this constitution. Perlis also becomes one of the earliest states in Malaysia to legalise method of Ahli Sunnah Waljamaah formally and written in the Highest Constitution of State.

In article 5(1) of Constitution of Perlis Government 1948 stating:

"The religion for State is Islamic religion of Ahli Sunah Waljamaah as practised in the State".

To explain on the interpretation for method of Ahli Sunah Waljamaah in Constitution of Perlis State Government 1948, Syariah Committee for Islamic Religion and Malay Customary Council of Perlis (MAIPs) had produced a fatwa gazetted that:

"The meaning of Ahli Sunah Waljamaah is a group of Muslims holding to al-Quran, al-Sunnah and opinion of the Companions agreeing upon explicit truth from Book of Allah and Sunah of Rasulullah SAW."

This explanation shows that the belief of Perlis state is Ahl al-Sunnah Wa al-Jama'ah not bound to any particular fiqh sect. Any view of fiqh sect is accepted based on authenticity of evidence from al-Quran and al-Sunnah brought by the sect."

Continuing from the same fatwa it is stated that:

"The Council is not bound to any particular sect. In any sect, what is clear and explicit from Kitabullah or sunah of Rasulullah SAW or Congregation of Rasulullah SAW's Companions,

then the council is ready to accept for its practice. While sects such as Hanafi, Maliki, Syafii and Hambali upon official view of the Council are accounted in famous sects included in the term Ahli Sunah Waljamaah. Islamic Religious Council of Perlis does refer to the sects and take their views that have reason from al-Quran, sunah and Congregation of Rasulullah SAW's Companions."

Therefore, in fiqh knowledge, Perlis Government agree to hold on al-Quran and sunah as the main source of reference, encourage ijihad in various current issues and reject blind imitation (taklid).

(Nazim & Hazman, 2018)

Implementation of Sunnah Practice in Perlis State

Implementation of Sunnah practice in Perlis state is executed in many aspects and not just one aspect. Among them are:

a. Through fatwa

Fatwas of Perlis state is clearer in stressing the implementation of sunnah practice that becomes the main focus. Some of the fatwas are as follows:

1. Fatwa Regarding Majmuk Syarif Book

After scrutinising the contents of Majmuk al-Syarif book, the meeting unanimously decides as follows:

Majmuk al-Syarif book propagated widely and becoming a source for some community members does contain elements contradicting with faith, false narrations, superstitions and fabricated practices not sourcing from authentic source. Then this book is banned.

2. Fatwa Regarding Status of the Expression al-Madad Ya Rasulullah

The expression al-Madad Ya Rasulullah meaning "Seeking for help O Rasulullah" is a type of al-Istighathah (seek of help) disallowed in Islam as it is a syirik act in prayer based on evidences from al-Quran and al-Sunnah.

3. Fatwa Regarding Claim of Seeing Prophet Consciously

Claim of someone seeing Prophet in consciousness (*yaqazah*) either in absolute form or spirit after His SAW decease has never been quoted through authentic narration to happen to any Companions RA, even in critical moment, like during the arising of opinion difference among them. That also applies to generation of Tabi'ien and Athba' al-Tabi'ien. Possibility of spiritual yaqazah to happen is a claim doubted and rejected by the muhaqqin such as al-Nawawi, Ibn Taimiyyah, Ibn Kathir, Ibn Hajar al-'Asqalani, al-Sakhawi, and also al-Qusyairi. That also goes to the claim of seeing Prophet's body in this time consciously which is also rejected. What is narrated from some scholars in this matter is confusing and contradicting in their own statement. The quotes have various differing versions. Some of them claim to see as (heart vision), some claim to see between sleep and consciousness, and some claim with only apparition of Prophet (مثالا له) and many more. All these claims can be interpreted to many which do not necessarily mean *yaqazah* as understood by some parties. Besides

that, claim of seeing Prophet in conscious is also exposed to devil's deception. It can open the door of harm with various purposes such as ujub and sum'ah. Therefore any claim of seeing Prophet either in dream or consciousness involving religious implications such as faith belief, religious laws and hadis evaluation is false and deviating. That also goes to the claim that certain incantation can invite Prophet to a certain ceremony which is also of no basis.

4. Fatwa Regarding Deviation of the Term Jihad Fi Sabilillah

The objective of jihad (holy war) in Islam is to uphold and glorify Allah's name. Any action done upon the name of jihad war but poses negative implication to Islam and its community then it is not a true jihad. By that, action of the groups under jihad's name that has posed negative effect to Islam is not jihad, as it violates the concept and discipline of war in Islam, such as killing those not involved in field of war from among women, elders, children and others. Instead, they commit sin by tarnishing the good name of Islam. Then, joining militant groups such as IS and al-Qaeda is not the decreed jihad. A Muslim is prohibited from involving with activity unclear upon the name jihad war, moreover of those that clearly bring harms to Muslim community. What done by IS and al-Qaeda cannot be related to jihad teaching in Islam and it contradicts with al-Salaf al-Soleh's understanding.

5. Fatwa Regarding Environmental Pollution

Islam is a religion preserving human life and nature's benefit. The objective of religion itself is also to uphold benefit and prevent harm. Then, Fatwa Committee of Perlis State by this declare that: Any action of polluting the environment and posing physical harm directly to human, animal and plants is forbidden, excepting existence of greater known benefit or prevention of obvious harm. Every Muslim is obligated to avoid himself from doing any activity and action that can lead to environmental pollution destructing life and disturbing the ecosystem directly. Any effort to protect environment is an action encouraged by religion and becomes a pious deed.

6. Fatwa Regarding Law of Zakat Provision to Non-Muslim

Zakat to non-Muslim under *Asnaf Muallafah Qulubuhum* (the group whose attitude and perception towards Islam are to be harmonized) can be provided upon benefit determined by Ulil Amri. This is like what done by Rasulullah SAW to non-Muslim group among the musyrikin and leaders of tribe as dictated in authentic narrations.

b. Through Brochure and Publication

Implementation of sunnah practice in Perlis is also executed through published materials distributor for free to Muslim community in Perlis. Among those published material are:

1. Mathur Prayers from Sunnah
2. Fiqh Taysir
3. Fake Hadis and Its Negative Effect to Image of Islam

Alongside with success of organising it for the first time, this Sunnah Village Program has caught the attention of DYMM His Highness King of Perlis declaring that it should be organised at least biannually. Due to that, Sunnah Village was held for 2nd Series on 20-22 November 2015, 3rd on 6-8 May 2016 and 4th on 28—30 April 2017 by maintaining format of content and same location. What changing was the theme of program that becomes the basis of academic discussion in the content of Sunnah Village.

In consequence of that, in year 2018 this program would be continued by the 5th Series. The organisation this time would involve as one of the programs in conjunction with the 76th Birthday Anniversary of DYMM His Highness King of Perlis. In usual, discussion in speech and lecture input slot surrounds on the theme determined in each series. While for the 5th series was "Soul Purification According to Sunnah".

The concept of this Sunnah Village is of old-school study (pengajian pondok) in which it serves as an instrument of making Perlis state as a state of knowledge. It centers on study and dissemination of knowledge based on Ahli Sunnah Wal Jamaah's teachings. This sunnah village provides input of knowledge and beneficial activities involving various levels of community. At the same time, it also contributes to strengthening of integrity among Muslim community. The festivity of this program also involves side activity such as exhibition booth, stall, sports event, art events, blood donation and others.

Conclusion

Ahl al-Sunnah wa al-Jamaah is a bounty from Allah SWT as a legacy of Malay community from generation to generation especially in Perlis state. Appearance of several practices violating Sunnah does not deny this relationship. There exist some groups embracing thought and practicing practices contradicting with Sunnah of Prophet SAW, as the thought of blaming laws from rulers even in matters of *makruf* and for benefit of community. This thought usually comes from religious group of political parties. That also goes to practices among some of sufi extremists and some of public community involved in superstitions. To face these groups, effort of dakwah and *Islah* have been and keep on performed to ensure that commandment of al-Amr bi al-Ma'ruf wa al-Nahy 'an al-Mungkar is upheld in Perlis. *Islah* effort in Perlis is stronger mainly after it receives support and endorsement by royal side.

Implementation of sunnah practice has gained great success in Perlis state as it succeeds in getting support from all beginning from royal side, state mufti department until lower citizens. Wrong perception of outer community towards Perlis, such as Perlis rejects scholars and does not have sect, is diminishing by effort of explanation, publication and dialogue organised form time to time especially from state religious administrative side such as Islamic Religion and Malay Customary Council of Perlis (MAIPs), Mufti Department of Perlis and Islamic Religious Department of Perlis (JAIPs).

This writing is more of general exposure. It needs more serious further studies to observe positive and negative effects from every approach of sunnah practice implemented in Perlis. Then, to take benefit and avoid existing weakness to ensure the whole community to remain on Sunnah of Prophet SAW.
